# 2<sup>nd</sup> INTERNATIONAL SCIENTIFIC CONFERENCE ON ECOLOGICAL AND ENVIRONMENTAL ENGINEERING

1-3 July 2020  
WROCLAW, POLAND

1<sup>ST</sup> ANNOUNCEMENT

## WELCOME AND INVITATION

Ladies and Gentlemen,

On behalf of the organizing committee of the 2<sup>nd</sup> International Conference of Ecological and Environmental Engineering (2<sup>nd</sup> COEE), we would like to invite you to Wrocław, Poland. That wonderful city combines culture, art, science and history. Tradition is mixed here with the latest technologies and continuous development. That is why Wrocław is one of the largest academic centers in Poland (there are 27 colleges and universities), and is one of the most-visited cities by Polish and foreign tourists. The center of life in Wrocław is focused around the beautiful, second largest river in Poland - the Oder, which creates perfect conditions for social life and an extremely important environment in the city center.

The idea of organizing this conference arose on well-established cooperation of seven Polish Universities (from Lublin, Kraków, Gdańsk, Poznań, Warszawa, Wrocław and Olsztyn) as well as Polytechnic Institute of Beja, Portugal and Czech University of Life Sciences Prague, Czech Republic and Universitat Politècnica de Catalunya-BarcelonaTech, Spain.

We hope that the conference we organize will be an excellent opportunity to exchange ideas related to water management, waste-water management, renewable energy sources and environmental protection. Since the Odra River is a vibrant, pulsating artery of Wrocław, one of the topics of the conference will also be the hydrology and river ecosystems life.

Above all, we want the participants of the 2<sup>nd</sup> COEE to have the opportunity to get to know each other and discuss the important topics mentioned above. We know that discussion between engineers, scientists, environmentalists and people representing the private sector and governments can lead to cooperation of the whole society and the environment which can bring benefits for all us.

In addition, a series of sessions with scientific presentations and posters on the broad field of environmental engineering will give each participant a chance to present and see the latest achievements related to improving the quality of the environment and implementing solutions aimed at sustainable resource management.

We hope that both the topic of the 2<sup>nd</sup> International Conference of Ecological and Environmental Engineering and the city of Wrocław itself will encourage you to actively participate in this interesting event.

Welcome to Wrocław!

## CONFERENCE TOPICS

Water and wastewater technology	Waste management and renewable energy
water supply; water management; water re-use; water quality; water treatment; semi-natural wastewater treatment systems; municipal and industrial wastewater treatment; sewerage systems; sewage sludge management; landfill leachates; storm water treatment and management; ecotoxicology	ecological methods of waste management; landfills restoration; waste-to-energy; biomass and biofuels; biogas production and applications; wind, solar and geothermal energy; hydropower; energy storage; renewable energy sources and the environment; social and economic aspects of “green energy”
Hydrology and river ecosystems	Environment protection and development
waterway of Odra river; water gardens and floating islands; urban water management and restoration; hydrological modeling; drought monitoring, early warning, and projection; flood prediction and management; hydro-meteorological extremes; analysis of hydrologic events; water and energy cycle pathways; water reservoirs; groundwater hydrology and monitoring	soil degradation, protection and remediation; protection and formation of water resources; landscape protection; organization of the agricultural production area; sustainable management of natural resources; spatial management; monitoring of environment; analyzing and reporting on the environment; environmental protection regulations; sustainable land use; climate change adaptation in cities

## COMMITTEES

### HONORARY COMMITTEE

**Prof. Tadeusz Trziszka** – Rector of the Wrocław University of Environmental and Life Sciences, Poland

**Prof. Zygmunt Litwińczuk** – Rector of the University of Life Sciences in Lublin, Poland

**Prof. Włodzimierz Sady** – Rector of the University of Agriculture in Kraków, Poland

**Prof. Krzysztof Wilde** – Rector of the Gdańsk University of Technology, Poland

**Prof. Jan Pikul** – Rector of the Poznań University of Life Sciences, Poland

**Prof. Wiesław Bielawski** – Rector of the Warsaw University of Life Sciences, Poland

**Prof. Ryszard Górecki** – Rector of the University of Warmia and Mazury, Olsztyn, Poland

**Prof. Petr Sklenička** – Rector of Czech University of Life Sciences Prague, Czech Republic

**Prof. Francesc Torres** – Rector of Universitat Politècnica de Catalunya-BarcelonaTech, Spain

**Prof. João Paulo Trindade** – President of the Polytechnic Institute of Beja, Portugal

## SCIENTIFIC COMMITTEE

**Krzysztof Józwiakowski** (University of Life Sciences in Lublin, Poland) – **Chair**

**Krzysztof Pulikowski** (Wrocław University of Environmental and Life Sciences, Poland) – **Deputy-Chair**

**Piotr Bugajski** (University of Agriculture in Kraków, Poland) – **Deputy-Chair**
